Nurturing potential within a Christian ethos

Vision:

Together we will work to enable all our children to achieve their full potential within our Christian family. Through the teachings and examples of Jesus, we nurture individuality - providing challenge, developing self-esteem and promoting care and respect for each other and God's world.

'I can do all things through Christ who strengthens me' Philippians 4:13

To achieve the vision, we:

- Enable the children to understand and follow the teachings and examples of Jesus as an outline for Christian living
- Ensure a broad and balanced curriculum for every child in a safe and stimulating environment which challenges and celebrates each child
- Equip children with the skills, knowledge and attitudes which will help them to develop into self-respecting, self-motivated adults
- Enable pupils to learn and appreciate the scale and scope of human achievement and develop their own individual creative talents
- Encourage the development of social, moral, spiritual and cultural values as well as British Values
- Strengthen children's understanding of care for the environment and develop a supportive partnership within our community

<u>Term</u>	<u>School Value</u>	<u>Parable</u>	<u>British Value</u>
Autumn 1	Respect	Wise man and foolish man	Democracy
Autumn 2	Peace	Sower	Liberty
Spring 1	Thankfulness	Lost sheep	Respect
Spring 2	Love	Good Samaritan	Tolerance
Summer 1	Forgiveness	Prodigal son	Resilience (not a British value)
Summer 2	Honesty and Trust	Unforgiving debtor	Rule of Law

INTRODUCTION

Staff responsible for drugs issues: The PSHE Lead is responsible for the development, monitoring and review of the drug education curriculum, supporting and training staff and liaising with any external agencies to support the curriculum.

The Headteacher has overall responsibility for drugs issues including managing drug-related incidents, liaising with the Police and other external agencies, including support services.

LINKS TO OTHER POLICIES

This policy should be read in conjunction with the following policies; PSHE, Health and Safety, Behaviour, Safeguarding and Administration of Medicines

DEFINITION OF DRUGS

The definition of drugs used in this policy is the definition given by the United Nations Office on Drugs and Crime: "A substance people take to change the way they feel, think or behave".

This refers to all drugs whether:

- Illegal drugs (those controlled by the Misuse of drugs Act 1971) such as ecstasy, cannabis, crack/cocaine, heroin and LSD, ketamine, GHB, anabolic steroids and khat
- Drugs that are legal to use but are covered by some legislation such as selling to under 18-year olds including alcohol, tobacco, shisha and volatile substances (solvents)
- Drugs that are legal to use and buy such as poppers
- Over the counter and prescription medicines
- And other drugs such legal highs/Novel Psychoactive Substances that are illegal to sell for human consumption and e-cigarettes that currently have no restrictions (although laws about selling to under 18s and use in public places are to be put in place)

Definitions of other key words

Drug use describes any drug taking. Any drug use can potentially lead to harm, including through intoxication, breach of the law or school rules, or future health problems.

Drug misuse is drug taking which leads to social, psychological, physical or legal problems through intoxication, regular excessive consumption and/or dependence.

WHY A POLICY IS NEEDED

Oxford Diocesan Bucks School's Trust (ODBST) advises all its schools to have an up to date policy which is part of being a healthy school.

Although it is highly unlikely that illegal drugs will be in our primary school, we believe that drugs play a part in the lives of every one of us and recognize that drug use and misuse can have a serious effect on health, well being and academic achievement. We therefore have a crucial role to play in drug prevention and education.

Primary aged children need to be protected from the harm that drugs can cause, and it is our responsibility to give them the knowledge and skills to be able to be healthy and keep safe.

We take a positive and proactive approach to the issue of drugs and this policy aims to:

- Give a clear view on the use of drugs in school.
- Provide information so that everyone is clear about the procedures should an incident occur, and the approach taken by the school.
- Give information about what is taught, how it is taught
- Give guidance to teachers, support staff and visitors about drug education

APPROACH TO TACKLING DRUGS

As part of being a healthy school we take a whole school approach to drugs through:

- A planned drug education programme through PSHE informed by pupils, staff and parent's views, as well as Science

- Carefully considered responses to drug-related incidents informed and supported by the views of the whole school community
- Clear rules and sanctions related to drugs
- Access to specialist support and advice, if needed
- Providing training and support for staff

DRUG EDUCATION

Aims of drug education

To give pupils information about drugs and help them develop the skills and attitudes to make healthy and safe decisions about drugs, alcohol, tobacco and medicines

To achieve this, our drug education programme will help pupils:

- gain knowledge and understanding about the effects and risks and dangers of drugs and correct myths and misunderstandings
- develop skills to make informed decisions, including communication, self awareness, negotiation, finding information, help and advice, helping others and managing situations involving drugs
- develop skills to manage situations involving drugs including assessing and avoiding risks, assertiveness and refusal skills and helping others
- explore their own and other peoples' attitudes to drugs, drug use and drug users, including challenging stereotypes and dispelling myths and exploring media and social influences

Where is it taught in the curriculum?

Teaching about drugs, alcohol and tobacco is taught through PSHE and in Science where it is required in the National Curriculum.

What is taught?

We reflect the requirements and guidance in the Science national curriculum, the non-statutory framework for PSHE and the content suggested in St John's PSHE scheme of work.

Key Stage1 PSHE curriculum focuses on:

About what keeping healthy means; different ways to keep healthy and that medicines (including vaccinations and immunisations and those that support allergic reactions) can help people to stay healthy, to recognise risk in simple everyday situations and what action to take to minimise harm, that household products (including medicines) can be harmful if not used correctly, about the people whose job it is to help keep us safe, about things that people can put into their body or on their skin; how these can affect how people feel, focus on what are safe and unsafe substances, what medicines are, why people take them and how to take them safely, being ill and getting better and what to do if someone persuades you to take something dangerous.

Key Stage 2 PSHE Curriculum focuses on:

How to make informed decisions about health about choices that support a healthy lifestyle, and recognise what might influence these, how to recognise that habits can have both positive and negative effects on a healthy lifestyle, how medicines, when used responsibly, contribute to health; that some diseases can be prevented by vaccinations and immunisations; how allergies can be managed, about the importance of taking medicines correctly and using household products safely (e.g. following instructions carefully), about the risks and effects of legal drugs common to everyday life (e.g. cigarettes, e-cigarettes/vaping, alcohol and medicines) and their impact on health; recognise that drug use can become a habit which can be difficult to break, to recognise that there are laws surrounding the use of legal drugs and that some drugs are illegal to own, use and give to others.

Pupils learn how the correct use of medicines, and how vaccinations and immunisations, can help to maintain health and wellbeing. Pupils learn about some of the risks and effects of (legal and illegal) drug use, influences and pressure. Pupils learn about the reasons why people use drugs; managing situations and peer influence, drugs and alcohol in the media

Pupils learn that mixed messages about drugs use in the media exist and that these can influence opinions and decisions, about why people choose to use or not use drugs (including nicotine, alcohol and medicines) about the mixed messages in the media about drugs, including alcohol and smoking/vaping, about the organisations that can support people concerning alcohol, tobacco and nicotine or other drug use; people they can talk to if they have concerns, how to recognise pressure from others to do something unsafe or that makes them feel uncomfortable and strategies for managing this to recognise reasons for rules and laws; consequences of not adhering to rules and laws focuses on what a drug is, the effects and risks of drugs including tobacco and alcohol, managing peer influences and resisting pressure to take risks and be able to make safe decisions.

Our curriculum ensures that we are covering both the statutory requirement in Science to teach Year 6 to recognise the impact of drugs on the way their bodies function; the non-statutory Science guidance to teach Year 6 how some drugs and other substances can be harmful to the human body and the relationship between diet, exercise, drugs, lifestyle and health.

Objectives and key learning intentions are set for each lesson, and on medium term plans. Drug education focuses on knowledge and understanding, skills and attitudes and the teaching programme ensures that there is progression from reception to Year 6 with topics and issues included which are appropriate to the age and maturity of pupils.

How it is taught (including involving outside contributors)

A wide range of active teaching methods are used that enable pupils to learn skills to be safe and healthy, discuss their views, explore their own and other peoples' attitudes and values about drugs, as well as learn key information about the effects and risks of drugs and practice skills to stay safe if involved in a drug-related situation. Such activities include role play, discussions, debates, case studies, quizzes, research and games. Pupils work individually, in pairs, in small groups and with the whole class, mixing up so that they experience working with lots of different pupils in the class, as well as in friendship groups.

All classes establish clear ground rules to ensure that pupils discuss opinions with respect and listen to one another as well as ensuring that pupils and teachers do not disclose personal information.

Drug education is taught by the class teacher and sometimes involves the school nurse or other professionals, including Buckinghamshire health professionals to support smoking education.

TRAINING AND SUPPORT FOR STAFF

The PSHE Lead has opportunities to develop their skills in planning drug education.

MANAGEMENT OF DRUGS IN SCHOOL

School's view about the use of drugs

This school does not permit the possession, use or supply of any illegal or legal drug (unless authorized legal drug), which takes place within the school boundaries. This cover; on or near the school premises, within the school day and during term time, on school visits, school journeys and at school social events.

These rules apply equally to staff, pupils, parents and carers, governors and those working and visiting the school.

Management of authorized legal drugs

This school has agreed that there are circumstances, when some legal drugs are authorized for use in school. These are prescribed medicines, hazardous chemicals (and solvents) and alcohol.

(i) Medicines (Refer to Managing Medicines policy)

In most cases, staff do not administer medicines at school to pupils unless it would be detrimental to health or attendance not to administer and only with parental written consent. Details about managing medicines can be found in our policy on supporting pupils with medical needs. The decision to allow pupils to self administer medicines rests with the Headteacher

Schools are allowed to keep a salbutamol inhaler for use in emergencies. It is only for children who have written parental consent, who have been diagnosed with asthma and prescribed an inhaler or who have been prescribed an inhaler as reliever medication. ***Please see our school protocol for using the emergency inhaler as part of our supporting pupils with medical conditions policy.***

Asthma inhalers, held in school with written parental consent, are kept secure with safe and easy access for school staff authorised to administer. Children's personal inhalers are taken on all off-site visits and held by the accompanying school staff.

Staff are aware of any serious medical conditions which affect pupils in their class.

The School Nurse will be informed of any children attending the school with medical conditions. Advice will be sought on ensuring they have an appropriate care plan and that school staff are trained to administer any medication required for the day to day management of their condition in school or during a medical emergency.

(ii) Hazardous chemicals and volatile substances (solvents)

Arrangements for the secure and safe storage of chemicals e.g. for cleaning are set out in the Health and Safety Policy

In the event of a child or adult whom is required to use medical sharps to address the management of their health condition (e.g. insulin or gluco blood testing) a medical sharps disposal bin will be provided. Advice will be sought from the School Nurse regarding the management of the sharps and sharps bin on the school site.

(iii) Alcohol

There are occasions when alcohol is authorised at school during parent's events and staff social events. Staff accompanying pupils on field trips or school journeys are not permitted to drink when responsible for pupils.

SMOKING AND VAPING POLICY

We are a smoke free school and staff, parents, pupils and visitors are not allowed to smoke or vape anywhere on school premises or in sight of the school. Smoke free signage is prominent around our school grounds.

We display information about giving up smoking and vaping on displays around the school and on parent and staff notice boards.

E-cigarettes (sometimes known as nicotine vaporisers)

Although e-cigarettes are not covered by smoking legislation, we are following ODBST's approach and not allowing the use of e-cigarettes by pupils, staff, parents, contractors or visitors on the school premises.

MANAGEMENT OF DRUG-RELATED INCIDENTS

Definition of a drug-related incident

In this school, a drug-related incident includes any incidents involving any drug that is unauthorized and therefore not permitted within the school boundaries.

Drug related incidents in a primary school rarely involve illegal substances but can involve:

Pupils smoking cigarettes in school, a parent/carer collecting their child whilst drunk, pupils selling cigarettes to other pupils, misusing another pupils' asthma inhaler, disclosing concern about a family member who has a drug problem, giving medicines to another pupil, a teacher with information about the illegal sale of cigarettes at a local shop, the finding used syringes in the playground, a member of the public phoning the school to say they have seen pupils smoking nearby.

School responses to drug-related incidents

In all drug-related incidents the following principles will apply:

- the head teacher and deputy will be informed immediately
- All situations will be carefully considered before deciding on the response
- The needs of the pupil(s) will always come first, whilst also taking account of the needs of the school as a whole
- Parents/carers will be involved at an early stage and throughout any investigation
- Support agencies, including the police will be involved as appropriate and in keeping with legal requirements
- A range of responses will be considered including disciplinary and counselling/supportive responses.
- Permanent exclusion will not be the automatic response and will only be used in the most serious cases and as a final resort
- Any action taken will be in line with the school's Behaviour Policy.
- Decisions about the response will depend on the severity of the situation, whether the offence is one of a series or a first time and whether the person involved is putting themselves and others at risk. The Headteacher, in consultation with key staff will decide whether a disciplinary and/or counselling action should take place.
- Incidents will be reported to the Chair of Governors

Possible responses might be:

(i) Support and counselling

If a pupil has a concern about drugs or has been involved in a drug related incident or is themselves at risk of drug misuse, we will seek support from Buckinghamshire Social Services and if appropriate refer to a specialist agency.

(ii) Sanctions

Where a school rule related to drug use, is broken, sanctions will be given. The type of sanction will depend on the nature and degree of the offence. Decisions about sanctions will be made by the Headteacher and consistent with the Behaviour Policy. In the unlikely event of an incident involving illegal drugs, permanent exclusion will be considered and used if needed.

Procedures for managing incidents

Reporting a drug-related incident

All drug-related incidents are reported to the Headteacher.

Although there is no legal obligation to report an incident involving drugs to the police, we will inform Police immediately any incident involving a suspected illegal drug. Incidents involving legal drugs will remain school matters, although we will contact Trading Standards or the Police about the sale of tobacco, alcohol and solvents to under age students, from local shops.

Recording the drug-related incident

All drug-related incidents are recorded using a Drugs Incident Form. The form is given to the Headteacher and kept confidential following GDPR guidelines.

In all drug-related incidents the Headteacher, in consultation with key staff, will decide on the responses, including the use of sanctions and/or counselling and support.

It is very rare for primary-age pupils to misuse drugs in school, however we believe it is important to be prepared should such an incident occur.

Medical emergencies when a pupil is unconscious as a result of drug use

Staff with first aid qualifications should be called immediately and the pupil/s must not be left alone. The pupil will be placed in the recovery position and an ambulance called immediately. Parents/carers will be informed immediately.

Intoxication, when a pupil is under the influence of a drug

The pupil will be removed to a quiet room and not left alone. The first aider and Headteacher called. The pupil will be helped to calm down and medical assistance sought immediately. Parents/carers will be informed and called to the school.

Discovery/observation

When a person is discovered using, supplying or holding a substance that is not permitted on school premises and which is described in this policy.

If the substance is suspected to be illegal, staff can take temporary possession of it:

- it will be confiscated, in the presence of a second member of staff as witness
- the sample will be sealed in a plastic bag with details of the date and time of the seizure/find and witness present and stored in a secure location (e.g. a safe or lockable container) with access limited to the Head and Deputy Head
- the pupil will be taken to the school office and the Head or Deputy Head called and the pupils questioned
- the police will be notified immediately, who will collect it and store or dispose of it, in line with locally agreed protocols.
- we will record details of the incident, including the police incident reference number
- we will inform the pupil's parents/carers and they will be asked to come into school, unless it is not in the best interests of the child to do so
- identify any safeguarding concerns and develop a support and sanctions response including internal exclusion whilst investigations are carried out.

If the substance is legal (but unauthorised in school) it will be disposed of or handed to the parent/carer.

Searches

Staff are allowed to confiscate pupil's property, as a disciplinary penalty, where reasonable to do so, including substances, whether legal or not.

If staff find other substances which are not believed to be illegal/controlled drugs these can be confiscated where staff believe them to be harmful or detrimental to good behaviour.

If school staff are unable to identify the legal status of a drug, it should be treated as an illegal drug.

If a member of staff has reasonable grounds for suspecting that a pupil is carrying illegal drugs on them or in their personal property, they will ask the pupil to voluntarily produce the substance, in the presence of two members of staff. In circumstances where a pupil refuses to do this the member of staff will discuss with the Headteacher who may decide to carry out a search in the presence of another member of staff. The Headteacher is the only person authorised to carry out a search, unless they are not the same sex as the pupil and then the Headteacher will authorise a senior member of staff. The search will take place in school or where staff have lawful control of pupils.

We will keep a record of the search and inform parents if a substance is found, although there is no legal requirement to do this or inform parents before or after a search or seek their consent to search a child. Please refer Behaviour policy Appendix B Searching, Screening and confiscation for clarity here.

Dealing with drug-taking materials

School site staff make regular checks of the school grounds and know how to deal with drug-taking materials, including needles, in line with health and safety advice.

Pupils are taught what to do if they come across needles on the school premises and know not to touch needles and to inform a member of staff immediately.

Disclosure

when a pupil discloses to a member of staff that he/she has been using drugs or is concerned about someone else's drug use. In these situations, staff will be non-judgemental and caring and will show concern for the pupil. Pupils know that teachers cannot promise total confidentiality for safeguarding reasons. The Headteacher or Deputy should be informed as soon as possible so that appropriate support can be found.

Suspicion/rumour. Staff should not assume use of drugs on the basis of rumours or behaviour alone. However, if there is a suspicion, evidence will be collected over a period of time before a decision is made to question the pupil(s) involved.

Intoxicated parents/carers

Our Schools' rules for drugs apply to all people who are on the school premises and we expect that parents/carers will adhere to these rules. If a parent/carer comes to school and appears to be under the influence of drugs or alcohol, they will be asked to leave. If they have come to collect their child, we will sensitively offer to phone for someone else to come and collect the child. If we are concerned that the child is at risk, then we will follow the Child Protection procedures.

Needs of pupils

We are sensitive to the needs of students whose parent/carers or family members have problems with drugs. Where problems are observed or suspected, or a pupil discloses problems, we will assess the pupils' welfare and support needs and if needed, involve external support for the child and, where appropriate, for the family.

Pupils need to be able to talk in confidence to staff without fear of being judged or told off. The welfare of children will be central to our policy and practice. However, teachers cannot promise total confidentiality in order to seek specialist help if needed. This is made clear to pupils through the PSHE and citizenship programme. Information about a pupil in relation to drugs will follow the same procedure as for other sensitive information. If teachers have any concerns about the welfare of children, they must inform the Head teacher.

WORKING WITH PARENTS/CARERS

The school welcomes parents/carers who wish to share with us, their concerns about drugs. We signpost up to date information about drugs and where they can get further information, help and advice.

Parents/carers will be informed immediately if their child has been involved in a drug-related incident. However, there may be some exceptional situations where involving the parents may put the child at risk and in these cases, the school will exercise some caution. The decision will be taken by the Headteacher in liaison with the designated child protection officer with the child's welfare a priority.

INVOLVING POLICE

In most cases a drug-related incident will be a school, rather than a police matter. However, the school will contact our local police officer immediately if an illegal (or suspected illegal) drug has been found on the school premises, on a pupil or illegal drug dealing is taking place. We will only call 999 in an emergency.
